

THEY CRY FOR FOOD

Hitting Harder in the City of Berlin.

EMPEROR WILLIAM GUARDED

Hungry While Lost Soldiers and Provision Stores—Troops Raising Up Their Arms Ready for Trouble.

Berlin, Feb. 27.—The entire force of troops composing the garrison of Berlin was kept under arms until 1:30 p. m. and then they were only allowed to eat "campaign food," biscuits and canned meats within camp. It has also leaked out that twenty rounds of ball cartridges were served out to the troops in the early stages of the fighting and that time the cavalry regiments, machine-gun battalions and infantry regiments were all ordered to occupy certain strategic positions in the shortest possible time upon receipt of the word. In fact the military staff of the emperor had upon his orders, it is said, taken all the steps necessary to suppress a revolution. The entire police force has been on duty night and day since the trouble commenced and their vigilance has not yet been relaxed.

Shortly after 11 o'clock Friday night there was another small riot, making the third of such disturbances since Thursday afternoon. About that hour a number of isolated groups of excited men, some of them pretty well loaded down with beer, forced in the northern districts, until a gathering of about 1,000 men was formed, and began shouting in an address from a socialist leader.

He had hardly uttered a few burning remarks condemning the brutal conduct of the authorities, etc., when the latter's machine-gun "Marcelline" broke upon the air and then the assembly joined in shouting the words of the great revolutionary anthem. At about the same moment, as if a carefully studied signal, a force of about a hundred blood-red flags were waved in the air and there was a scene of enthusiastic confusion. Then above the din of the "Marcelline" were heard the stirring cries of "Bread! bread! bread!" "Give us work or give us bread!" "Work or bread!" "We are starving!" "Give us bread or a chance to earn it!" "Down with the capitalist! Burn their houses!"

Then a wild-eyed man was hoisted above the heads of his comrades, and, sitting upon their shoulders, he hoarsely cried in tones which could be heard far and wide: "Bread. Let us take bread if the emperor will not give it to us. There," pointing to a neighboring baker's store, "there is bread, take it."

With a roar like that of a pack of hungry tigers the mob made a rush for an adjoining bakery, broke in the sliding door of the store and cleared it of its contents in about the time it takes to write it. The supply of bread from this store was only sufficient to relieve the hunger of a small portion of the crowd, so a number of other bakeries, confectioneries, grocery stores and wine shops were broken into and emptied of their contents. Two butcher shops were also looted before a force of police strong enough to quell the riot could be summoned. When the police did appear, the mob, evidently more full of hunger than of shot, scattered in all directions and left the police in possession of the dismantled stores.

The Worst Photo Suppressed. London, Feb. 27.—The Berlin correspondent of the Times declares that the laxity of the government in Berlin is due to an attempt to minimize the extent of the disorder in the eyes of the public. The correspondent further says that all telegrams describing the rioting in terms offending the eyes of the German press centers have been refused transmission at the telegraph offices and that no accounts of the later excesses of Thursday could be wired. The correspondent's own message breaks off in the middle of a sentence describing Friday's scenes.

St. Petersburg, Feb. 27.—The Russian newspapers, with scarcely an exception, unfavorably criticize the speech of Emperor William at Brannenburg. They declare that the language used on that occasion is calculated to inspire doubt and anxiety as to the stability of Emperor William's position.

IOWA LEGISLATURE

Senator Gatch (Rep.) Introduces a License Measure.

Des Moines, Ia., Feb. 27.—In opposition to the expressed republican policy Senator Gatch, a member of that party, introduced in the senate on Friday a measure providing for county option in the matter of licensing the sale of liquor. The bill gives consent to have it advanced to the head of the calendar, and Wednesday next was scheduled upon for its consideration.

The minimum fee is fixed at \$500 which municipal councils may increase to any figure they choose. It provides for an election on petition of five-fifths of the voters in any county, and the vote then taken decides the attitude of the various township or ward on the license question. It also provides that if a council should be overwhelmingly opposed to the measure the wards or townships may take advantage of the law. A bond of \$5,000 with two sureties is required. Saloons must close at 11 p. m. and remain closed until 6 a. m. and all day Sunday. There are numerous restrictions as to the sale of liquor and habitual drunkards, the sale of adulterated goods, etc., and the penalties for violating the same are severe.

Senator Gatch's action has caused a great deal of alarm among the prohibitionists, especially as three other republican senators are known to favor the measure.

In the house the concurrent resolution fixing March 15 as the day for final action was adopted. Speaker Thompson's joint resolution asking congress to repeal the revenue tax on retail liquor dealers from 10 to 15 per cent. passed by a vote of 51 to 43.

BEATEN BY THE MOB

Attempt to Run Indianapolis Street Cars With Police.

THE EFFORT WAS A FAILURE

Angry Strikers Resist and Riotous Scenes Ensue—The Cars Upset and Several Persons Hurt.

Indianapolis, Ind., Feb. 27.—No less than a dozen mobs have occurred here since 6 o'clock a. m. At an early hour and by prearrangement with the street car company Mayor Sullivan ordered the police to assist in the running of the cars. The strikers and sympathizers fought every inch of ground and at 7 o'clock three cars were overturned in the gutters.

The Struggle for the Police. By 8 o'clock the mobs on the different streets numbered fully 10,000 men and business generally was interrupted by the violent proceedings. Nearly fifty arrests have been made and a dozen cars injured by rocks. The police force is composed of only 110 men and would be utterly defeated in case of a battle.

The Trouble Begins. The trouble began when the company started out a half-dozen cars on the Pennsylvania street line, each of which contained several policemen. Telephone messages were hastily sent to all parts of the city and the strikers and their sympathizers were notified that the company was attempting to run its cars. The strikers were not in sufficient force when the cars were first started and their efforts to prevent them from moving were overpowered by the police. By the time Washington street was reached a mob of people had collected, among them a great number of the strikers, and a most determined front was shown against the further moving of the cars.

Many Arrests. Hundreds of men planted themselves in front, taunted and abused the police and the drivers, threw rocks through the car windows and bodily lifted the cars from the tracks and prevented further progress. The police arrested President Dugan, of the brotherhood, and ten or fifteen of the strikers, but within half an hour they were released on bail and reappeared at the scene of action ready to lead the strikers in another attack on the cars. The crowd in the meantime swelled to thousands, but the police cleared the way a few feet at a time and with dogged persistence the cars were moved forward and finally reached the Louisiana street turn, where they were put away, presumably for the day.

Upset the Cars. About 11 o'clock the car of which Caswell Madison was the driver was overturned and Madison badly beaten. Ten minutes later two more cars were overturned and the crews badly handled. The strikers have promise of reinforcement by the thousands, and more violent results are expected. Several policemen have been injured.

On other lines similar attempts were made and met with similar resistance, and during the entire morning there were scenes of strife and confusion in all parts of the city. Many of the best citizens and some women in the crowd urged the strikers to stand firm and boldly proclaimed their sympathy for them.

A Temporary Victory. All attempts to run cars have been abandoned until Monday morning, and the meantime a compromise of some kind is hoped for. The policy of ordering out the police at this late date is severely criticized, as it has only been conceived by organized labor as treachery on the part of the city government. The trouble has ceased to be an exclusive street car fight and all laborers are now engaged in resistance to the company's plans.

STEWART OUSTED

The Democratic Majority in the House Increased—Alexander C. Craig Elected as Representative from the Twenty-Fourth Pennsylvania District.

Washington, Feb. 27.—In the house on Friday Andrew Stewart, of the Twenty-fourth Pennsylvania district, was unseated and Alexander C. Craig, the democratic contestant, was declared the regularly elected representative. After speeches by Messrs. Stewart (Tex.) and O'Ferrall (Va.) in favor of the contestant, and that of Mr. Dalzell (Pa.) in favor of the contestant, Mr. O'Ferrall demanded the previous question. It was ordered without opposition. The first vote was on the minority resolution confirming the right of Stewart to his seat, and it was defeated—yeas, 38; nays, 152. The majority resolution seating Craig was adopted without division, and Mr. Craig appeared at the bar of the house and took the oath of office. Mr. Cochran (N. Y.) and Mr. Babbitt (Wis.) voted in favor of the republican contestant.

Mr. Rogers (Tex.) submitted the conference report on the urgent deficiency bill and it was agreed to. (The bill appropriates \$250,000, being \$149,489 more than it carried when it originally passed the house, and \$25,511 less than it carried when it passed the senate.)

Future of Cleveland. Cincinnati, Feb. 27.—A. Spiegel & Co., tenters, Camp Washington, have assigned for the benefit of their creditors. Liabilities, \$90,000; assets, \$73,000.

Go to Canada. Louisville, Ky., Feb. 27.—George S. Moore, aged 64, pig iron and coke commission merchant here, is reported to have gone to Canada, caused by the fact that he has duplicated warehouse receipts, of which warehouse paper banks hold about \$14,000. His friends are negotiating to take up the receipts.

Yachts Seized by Police Crew. Jacksonville, N. Y., Feb. 27.—The Empire state express on the New York Central road, which runs a mile a minute, is too quick for the law yachts. Several races have occurred recently and the law yachts invariably get the worst of it.

The Future Record. New York, Feb. 27.—The business failures occurring throughout the country during the last seven days numbered 279, as compared with totals of 250 last week. For the corresponding week of last year the figure was 280.

Neenah and Menasha, Wis., are situated on the Wisconsin Central Lines, at the foot of Lake Winnebago, and like other towns on or near this sheet of water, are very important manufacturing centers. The general government recognizing the value of the location for manufacturing purposes built extensive dams, the lake forming a water head of unfailing power, hence there is furnished water power practically unlimited in its capacity. The famous Neenah water power is the first of the great hydraulic powers, and is made by a ten-foot fall of the river between Neenah and Menasha.

The water is carried along two canals, one nearly a mile in length and the other one 1700 feet long, which run parallel with the river. On their banks are located the many prosperous manufacturing establishments, including five large paper mills, flour mills, stove works and others too numerous to mention. The Wisconsin Central Lines is the direct route from Chicago and Milwaukee, affording unequalled service.
